REMARKS

Very thanks for Examination's suggestion and thanks for finding some citations about the present invention, thereby, the applicant may know more information about the invention. This case has been carefully reviewed and analyzed in view of the office action. All details of the reference prior arts are fully considered and compared with the present invention.

ABOUT CLAIM REJECTION OF 35USC103

Indeed the citations disclose some features of the present invention, and the applicant agrees with these viewpoints, however applicant discovers that some main features of the present invention are not disclosed in the citation which can form the novelty and inventive step of the present invention.

To illustrate the novelty of the present invention and overcome the objection from the citations, the applicant decides to cancel Claims 1 to 5, without prejudice or disclaimer of the subject matter thereof, and add new claim 6 and 7.

The added new claim 6 is identical to the original claim 1, but some feature in the Fig. 5 is added. The added new claim 7 is identical to the original claim 2, but some feature in the Fig. 5 is added. The Fig. 5 is elected in the pervious response to the office action and the claims 1 and 2 are permissible to further examine. Thereby, it is assured that the new claims are based on the original claim and specification and thus no new matter is added.

The relation of the new claims with respect to the original claims

-||page 77|-

are shown in the following

**CLAIMS SHOW CHANGES AND NUMERALS FOR DISCUSSING
IN THE REMARK**

Claims 1 to 5 (Cancelled)

Claim 6. (new) ~~1-~~ A silicone-rubber plate used in an oven, said plate 2 comprising a projecting circumferential edge 20, a metal bar 3 contained in said circumferential edge 20; said plate 2 not disfiguring when it is held up by a user and keeping its flat shape so as to prevent soup in said plate from overflowing and to maintain intact the appearance of baked food placed on said plate and also to hamper food thereon from falling off; and -

wherein the plate has plurality of elliptical recess.

Claim 7. (new) ~~2-~~ A silicone-rubber plate used in an oven, said plate 2 comprising a projecting circumferential edge 20, said circumferential edge 20 having an inlet, a metal bar 3 inserted through said inlet to extend lengthwise in the interior of said circumferential edge 20; said plate 2 not disfiguring and able to maintain its flat shape so as to prevent soup in said disc oven from overflowing and also to keep intact the appearance of the hood baked on said disc oven and also to hamper food from falling off when said plate is held up; and -

wherein the plate has plurality of elliptical recess.

**DISCUSSION ABOUT THE NOVELTY THE PRESENT
INVENTION**

-page 97-

6

In the new claims 6 and 7, we state that "the plate has plurality of elliptical recess." The Fig. 5 is elected in the pervious response to the office action and the claims 1 and 2 are permissible to further examine.

It is apparent that no prior art has the features of the present invention, especially in new claims 6 and 7, even the combinations of the citations USP6197359, USP6098805 and USP1707655 still have no feature of claim 5 of the present invention.

However the three citations still have no any corresponding element as above mentioned.

(E) RESULT

Since in above discussion, it is apparent that no prior art has the features of the present invention, especially in new claims 6 and 7, even the combinations of the citations USP6197359, USP6098805 and USP1707655 still have no feature of claim 5 of the present invention.

Furthermore, as we know that no other prior art has features of the present invention. Thus, the present invention is novel and inventive.

If there is any error in the specification, or claims, applicant requests and authorizes Examiner to amend the claims, specification and drawings of the present invention so that they can match the requirement of U. S. Patent. Attentions of Examiner to this matter are greatly appreciated.

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectively
